Other comments

Director Holt is the best leader I have ever worked for.

Director Holt encourages all staff to treat this library with care and respect. It is obvious that she wants the library to be a pleasant experience for everyone. She consistently invites us to suggest changes to make it better for everyone.

While the director appears to have a good handle on many areas of library administration, she treats the employees very badly. It's difficult to be on the receiving end of her nastiness. Anything anyone suggests is immediately shut down as if the employees know nothing and don't care about their jobs or the library.

For the library's size, there seems to be a lot of staff turnover. Given how hard it is to recruit qualified people, perhaps more thought should be given to how to retain them.
